Meet • Support • Play

What you will need:

- cotton wool balls
- glue
- colourful cupcake cases
- washable paint
- water
- colourful cupcake cases
- plastic pipette / dropper

A fun art and crafts activity for your little one using simple household items. First take a cupcake case and flatten it out, using the glue, stick the cotton wool balls on forming a flower shape like the photo. Then mix your paint and water using a 2 parts paint, 1 part water ratio. Have your pipette/dropper ready and invite your little one to squeeze the colourful water into the pipette/dropper and squirt it onto the cotton wool flower. Have fun!

TOP TIP

Add more water if the paint is too thick
